Cornell MEng/MBA

What will the dual MEng/MBA degree do for me?

If you aspire to a corporate leadership role, or want to advance in your technical field with comprehensive business knowledge, our combination of Cornell's professional MEng degree with the Johnson MBA gives you a powerful edge in the business of technology.

From the College of Engineering, which offers the MEng in **15 fields of study**, you'll get advanced **engineering, teamwork, and communication** skills to enhance your engineering career. From Johnson, you'll get a solid grounding in **all business functions** and a **general-management** perspective.

This powerful combined toolkit helps you advance in the business of technology and engineering to higher levels of **leadership**. Our MEng/MBA alumni have pursued careers in **engineering and technology**, as well as **consulting, general management, and finance**. Some have taken the fast track to greater business responsibility in **corporate technology** companies; others have launched successful **entrepreneurial** ventures, supported by Cornell's vast resources in entrepreneurship.

Why Cornell? Both the College of Engineering and Johnson are among the most prestigious schools in the United States, offering a diverse, intensely

collaborative community, distinguished **faculty**, the brightest **students**, and a far-reaching network of **influential and helpful alumni**. Cornell's campus-wide collaborations lead to new fields of endeavor and **groundbreaking knowledge**; the atmosphere is both high energy and warm.

To fund both degrees, you are eligible to apply for the **Lester B. Knight MEng/MBA Scholarship**, generously endowed by Mr. Knight and his family. U.S. and international students can apply; please see the Knight Scholarship webpage for details.

Earn the MEng/MBA in two ways.

Complete the MEng/MBA in two years with the One-Year MBA, or in two and a half years with the Two-Year MBA. Apply to both the MEng and MBA before starting the MEng, or apply to the MBA after you've begun the MEng. You begin your One-Year MBA pathway (Two-Year MEng/MBA) at Engineering, completing the MEng at the end of your first academic year. In May, you start at Johnson, completing your MBA at the end of the next academic year. The Two-Year MBA pathway (Two and a half year MEng/MBA) begins at Johnson. During your first year at Johnson, you may apply to the MEng program and will complete one year of study in each program followed by a final semester of study at Johnson.

Timing	OPTION 1 One-Year MBA	OPTION 2 Two-Year MBA
YEAR 1	Engineering	Johnson (<i>apply to MEng</i>)
SUMMER	Johnson	N/A
YEAR 2	Johnson	Engineering
YEAR 3 (<i>one semester only</i>)		Johnson
