YEAR IN REVIEW 2022-2023

Cornell
SC Johnson College of Business

Born in an Emerging Market (Saudi Arabia), and raised in another (India), I have always been curious as to what does it take for a developing country to cross the development chasm and how does one achieve it? The Emerging Markets Institute at Johnson helped me connect with an inquisitive group of professionals who were equally invested in researching, contributing, and spreading awareness about the role and impact that emerging markets have on the global economy. I have had the pleasure to host talks, meet VCs & business professionals operating in these economies and promote entrepreneurship through the Annual EMI conference and the pitch competition. My MBA journey would be incomplete without this association & I hope to remain connected with the institute in the future.

- FNU Abdullah, MBA 2023

I am immensely thankful to Cornell EMI and Prof. Lourdes Casanova for giving me an opportunity to be part of EMI community and enhancing my knowledge of emerging markets beyond my home country India. My EMI learning experience has been a perfect blend of taking EMI courses and being actively involved in organising EMI Annual Conference and managing social media for EMI.

- Subhi Singh, MBA 2023

EMI was definitely one of the highlights of my time at Cornell. Being a fellow helped me satisfy that longstanding itch I have to stay informed about what goes on globally. But it did so more broadly than I would have ever expected. Conferences, competitions, webinars, courses, informal meetings with practitioners, annual reports, etc. helped expose me to anything from e-commerce in Nigeria, to the banking sector in Brazil, and from digital currencies to tech entrepreneurship across emerging markets. It was an honor to be part of this group that provides such global perspectives and personal connections.

-Rodrigo Ley, MBA 203

Being part of the EMI Fellows cohort was one of the best parts of my MBA experience! I found a community of extremely passionate people who brought a range of perspectives and new ideas to the table. Prof. Lourdes and the EMI leadership team went out of their way to organize immersive trips, incredible guest lectures, research opportunities and events for each one of us. The EMI conference was the highlight of our year, and engaging with impactful start-ups from different was inspiring - it challenged us to think about how we can bring positive, lasting impact in our own communities and countries. The EMI Fellowship helps participants to chart their own path and champions the prospects of emerging markets, and the students who represent them at Cornell.

- Sharwari Pandit, MBA 2023

EMI is that wonderful institute at Cornell, where students can really get involved with emerging markets and enable self-discovery. Interacting with leaders across emerging economies and learning about business in emerging economies from a western perspective was extremely insightful for an MBA student like me. I was also able to attend conferences and meet leaders from Africa, LATAM, India, parts of Europe and understand how local dynamics play a huge part in value chains. I was extremely happy to participate in EMI and activities organized by EMI, and highly recommend it to students and individuals passionate about emerging markets. I was also happy to be able to add value from my experience in an emerging economy. It was amazing to see how EMI has grown and how it is being led. -

Anant Agarwal, MBA2023

Being part of the EMI was an amazing opportunity to be part of a community of like-minded students and speakers passionate about the emerging markets. The EMI program consists of many different aspects, from diverse speakers to conferences to international treks, all aimed at challenging you to develop your leadership skills and understand what it means to be a global leader. One of my highlights was being paired with a local coffee farm in Colombia through one of the EMI treks. The volunteer consulting project opened my eyes to new types of businesses around the world and helped me apply business skills we learned from Johnson. I went in unsure if I wanted to pursue a career in the emerging markets and came out eager to continue engaging and seeking out opportunities to work in this space.

Letter from the Director

Dear EMI Community,

As we close another successful academic season, we look back on EMI, and our students' achievements in 2022-2023 year. Through the EMI Conference, Case and Pitch Competitions, Emerging Multinational report, and more, the institute facilitated discourse on emerging markets within the Cornell community, built bridges between institutes and universities across the globe, and provided thought leadership on the most pressing issues in developing economies today.

Regarding outreach, on November 4, 2023, the EMI Annual Conference at Cornell Tech, NYC, brought together over 450 participants to discuss this year's theme: 'Reinventing Global Value Chains.' Our speakers and attendees came from 41 countries, 5 continents, and 90 academic and business institutions.

The EMI Corning Case Competition drew more than 370 students from 17 leading business schools across the world, including from Bangladesh, Canada, Colombia, India, Mexico, Nigeria, Russia, South Korea and the U.S.). Students competed on a case on a telecom company from Indonesia.

The Cornell EMI Mark Mobius Pitch Competition celebrated its third year, organized in collaboration with universities from 9 countries: Ghana, Peru, USA, Colombia, India, Jordan, Nigeria, UK, Egypt. Out of 10 participating startups, IIT Kanpur's Life and Limb — they develop affordable artificial limbs with sensors — took home 1st place.

The EMI also continued to engage with its alumni community, launching the Cañizares Alumni award, and the inaugural award was presented to Paul Kavuma Johnson '93, founder and CEO of Catalyst Principals in Kenya and East Africa.

Five Webinar Series to launch the EMI report led by Ravin Nanda, and presentations in collaboration with eCornell And the Cornell China Center, the Central Bank of Nigeria, or about India and with Dean Andrew Karolyi and Prof. Wesley Sine EMI launched a certificate on Emerging Markets.

As for research, the EMI published its 7th Annual Research Report, co-authored by Lourdes Casanova and Anne Miroux, in collaboration with 20 authors from the OECD development center, UNCTAD, IFC/WB, Inter American Development Bank, the University of Oxford and the Emerging Multinationals Research Network, and Wuhan University. EMI faculty led over 35 presentations of the report all over the world, including at the OECD. This year's report centered around themes regarding the growth of companies from Emerging Markets and the launch of an ESG ranking (D-ESG) for emerging markets.

With Professors Arnab Basu and Shanjun Li and in collaboration with CICER in Dyson, EMI worked on the third and last year in the Emerging Markets theme and GSEM conference in collaboration in collaboration with UT Dallas, University of Miami and SFU in Vancouver on May 6-8 in Vancouver, Canada.

A big thanks to the EMI Team, Julia Luna, Daniel dos Anjos, Mumuksha Khicha, Anne Miroux, Andrew H. Lim, Mihika Badjate, Vritika Patni, Alex Herazy, Noel Liu, Julian Galarza, Andrew Foley for your great dedication and commitment. Thank you also to the EMI Conference leadership committees — Bill Montgomery and Clarisse Alpaert, for their tireless dedication to the case competition; Rodrigo Ley and Sarah Landes, for their hard work on the pitch competition, and the rest of the EMI team for all their efforts to continue with its mission building bridges and encouraging dialogue.

About EMI

Lourdes Casanova

Lourdes Casanova

Gail and Roberto Cañizares Director

Founded in 2010, Cornell's Emerging Markets Institute at the S. C. Johnson Graduate School of Management provides thought leadership on the role of emerging markets—and emerging market multinationals—in the global economy. The Institute brings together preeminent practitioners and academics from around the world to develop the next generation of global business leaders and create the premier research center on the role of emerging markets in the global economy.

Vision

EMI will become the thought research leader and educational magnet where businesses with operations in emerging markets hire MBAs to lead their organizations because of recognized expertise on issues related to emerging multinationals, innovation and corporate social responsibility in emerging markets.

Mission

The EMI mission is to be the premier institute for emerging markets worldwide, to affirm the importance of emerging markets in the global economy and to equip leaders with the purpose, insights & tools to thrive in emerging markets.

Thanks to the generosity of Roberto Cañizares, BS'71, MBA '74, the Cañizares Fund provides a stipend for a summer internship in emerging markets and also provides travel monies for international case competitions.

This year, 3 EMI Fellows were selected: Yuchan Wang went to Kenya, Christiani Sagala went to Indonesia, and Nay Thu Rein Aung went to Myanmar. The total funds awarded were \$17,000.

Emerging Market Multinationals Report 2022

"Reinventing Global Value Chains"

Lourdes Casanova
Anne Miroux
& CONTRIBUTORS

The EMI Report monitors the performance of emerging market multinationals. It also examines the growth prospects of emerging economies in today's highly complex and uncertain world. The Report also analyzes the transformation of global value chains over the past two decades, and deals with global value chain related issues, such as the potential impact of sustainable finance on global value chains, or how financial innovations could help micro and small enterprises (MSMES) integrate global value chains.

Emerging Markets Theme

- Organized by Cornell S.C. Johnson College of Business, with China Institute for Economic Research, the Cornell China Center, the Emerging Markets Institute, and the Entrepreneurship and Innovation Institute
- The theme provided \$12,000 of total funding to 9 PhD students across Cornell
- PhD Research Day on Nov 2, 2022
 - 25 student presenters from 11 schools
 - 6 guest speakers from top schools: Columbia Business School, Cornell University, McGill University, University of Pennsylvania, and University of Ottawa

eCornell Certificate Program

Emerging markets have become key players in the global economy, but their ability to transform into developed markets is often hindered by a lack of funding. In this certificate program, you will explore the tremendous opportunities for investing in underfunded markets as well as some unique challenges that arise when investing in developing economies. By the end of the program, you will have additional perspective on the opportunities, challenges, and key elements of investing in emerging markets, including valuable insights to apply in your own work. EMI Website and Newsletter

The EMI website recorded 69,178 pageviews, 10,192 users including 7,720 new users, and an average of four-pageviews per session for the 2022-2023 academic year. Moving forward, we are working to make the website more easily navigable, consolidating webpages to eliminate redundancy, and modernizing the design.

The newsletter is one of the EMI's biggest marketing tools with information about upcoming EMI events, a blog spotlight from our business feed, an EMI team and advisory council series, and recent publications and work by the EMI community. For the 2022-2023 academic year, we sent out a total of six newsletters to an average of 14,555 contacts.

EMI Social Media

The EMI's presence in social media includes Instagram, Facebook, LinkedIn, YouTube, and X. We are grateful to Mihika Badjate for leading these efforts and also Myriam Mendoza and Lewis Gonzalez.

EMI Social and Networking Events

EMI Undergraduate Club

Our new, Emerging Markets Institute Undergraduate Club, EMIC was founded in February, 2022. EMIC will provide greater opportunities for undergraduate students to get involved with the Institute through research projects, mentorship sessions, speaker events, and more. Thank you to Mihika Badjate and Andrew Lim for their leadership.

MISSION

"To bring together students who are interested in emerging markets to learn about issues in developing countries, and to create an undergraduate community associated with Cornell Johnson's Emerging Markets Institute."

PLAN

Mentorship program with EMI Fellows

Networking opportunities and one-on-one mentoring sessions with EMI Fellows (Johnson MBA students)

Training sessions

Training sessions with EMI staff to learn how to use financial resources such as CapitalIQ and Bloomberg

Research projects

Opportunities to conduct and publish research for the Emerging Markets Institute publications

Educational seminars

Learning from emerging markets experts about key developments in developing economies

EMI Coffee Chat

EMI with Emerging Markets Society organized a coffee chat event with Johnson Alumni, Kunal Ghosh. This was an informal conversation to be able to reconnect and share experiences in the business world with EMI fellows and members of the society.

Acknowledgements

We would like to thank the EMI Team, Faculty, Members of the Advisory Board, and Faculty Board, our conference and graduation committees, and our interns for making this academic year a success. We also would like to especially acknowledge the generosity of Gail and Rob Cañizares, Mark Mobius, Corning Inc, Henry Renard, Bob Staley, Nell Cady-Kruse, and the Ada Kent Howe Foundation for their continuous support.

In addition, we would like to acknowledge the generosity of all of our community members and donors who made the EMI's 2023 Alumni Giving Day a success when we raised over \$8,380 to support the EMI's educational initiatives, and continue our mission of building bridges and encouraging dialogue.

We wish all the best for our team members who have moved on to the next chapter: Vritika Patni, Mihika Badjate, Ravin Nanda, Julia De Almeida Luna, Gautam Jain, Vineetha Pachava, Eunbin Kim, and Sara Alex. You all have been great supporters to the EMI and we will surely miss you.

Together, let's inspire our students to take leadership in Emerging Markets, committing to diversity and richness of thought that will forge our global future.
